Agency-Specific Content for the Notice of Funding Opportunity

Program Description

The SFY 23 Illinois Not-for-profit Security Grant Program (NSGP-IL) provides funding support for target hardening and other physical security enhancements, including training for not-for-profit organizations that are at high risk of a terrorist attack by a terrorist organization, network, or cell as defined in 29 Illinois Administrative Code 120.

Objectives

NSGP-IL funds must be used for target-hardening activities, which can be accomplished through trainings such as active shooter, or through the purchase and installation of security equipment on real property (including buildings and improvements) owned or leased by the not-for-profit organization. Security enhancements must be for the locations that the not-for-profit occupies at the time of the application, and the projects must be fully completed during the three-year performance period. NSGP-IL seeks to integrate the preparedness activities of not-for-profit organizations with broader state and local preparedness efforts.

Performance Measures

Performance metrics for this program are as follows:

- Percentage of funding spent on contract security;
- Percentage of funding spent on target hardening;
- Percentage of funding spent on training; and
- Percentage of funding spent on Management & Administration

Priorities

Given the evolving threat landscape, it is incumbent upon IEMA to continuously evaluate the State of Illinois risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the State of Illinois risk profile for SFY 2023, these areas attract the most concern:

- 1) Enhancing the protection of soft targets/crowded places; and
- 2) Training and awareness.

State Funding Information

Available Funding in the SFY 23 NSGP-IL NOFO: \$20 million

NSGP-IL Maximum Award

Eligible applicants with one site may apply for up to \$150,000 for that site. Applicants with multiple sites may apply for up to \$150,000 per site, for up to three sites, for a maximum of \$450,000 per organization. If an applicant applies for projects at multiple sites, regardless of

whether the projects are similar in nature, each site must have its own application and include an assessment of the vulnerability and risk unique to each site. Failure to do so may be cause for rejection of the application.

Period of Performance

IEMA will issue these competitive grants to applicants that are approved by IEMA. The period of performance is 36 months.

Projected Period of Performance Start Date(s): April 1, 2023

Projected Period of Performance End Date(s): March 31, 2026

The Illinois Emergency Management Agency (IEMA) and the Illinois Terrorism Task Force, announce a grant opportunity for not-for-profit organizations located in the State of Illinois. Reminder: Each NSGP-IL Application form and corresponding required documents must be exclusively for one physical location/address. Applicants may submit up to three (3) NSGP-IL Applications. Each organization submitting multiple NSGP-IL Applications can request up to \$150,000 per location for a total of \$450,000 across three unique physical locations/addresses.
